Summery

Passionate and dedicated Junior Backend Developer with MERN stack expertise. Eager to build scalable, efficient, and secure server-side applications. Seeking a dynamic team to grow technical skills, explore advanced technologies, and contribute to innovative backend solutions that enhance overall system performance.

Technical Skills

Front-end: React Js | JavaScript | TypeScript | Tailwind CSS | Bootstrap | Daisy UI
Back-end: Node Js | Express Js | MongoDB | Mongoose | TypeScript
Tools: Git | Github | Vercel | Netlify | Chrome Dev Tools | Figma | Trello
Soft Skills: Time Management, Hard Working, Team Work, Quick Learning

Projects

Giftly E-commerce Platform(Team Project) Sep24 - Nov24   **[Live Link](#) | [Client Code](#) | [Server Code](#)**
Overview: Giftly is a virtual Gift Store platform. Users can purchase any gift from here and schedule delivery for a specific time or occasion if they wish. They can track their orders and use live chat for any support needs. This was a team project, and I worked as a front-end developer, also contributing to some extent to the back end.
My Contributions:
- **Schedule Delivery:** User can schedule a gift order for a specific time and moment, and it will be delivered at that exact time
- **Order Tracking:** Users can check order status: pending, processing, shipping and delivered. Admin can update status
- **Dashboard:** I have designed the following pages gift upload and manage, manage users, order history, and my orders.
- **Front-end:** I have designed the Best Selling Gift Section and Wishlist Page

Technologies: React Js. Tailwind CSS, Daisy UI, Node Js, Express Js, MongoDB, Firebase, Socket io
Credentials: Email:admin@gmail.com , Password:123456

Sheba Diagnostic Center   **[Live Link](#) | [Client Code](#) | [Server Code](#)**
